Should-Shall (BC-2007-16)

S. Williams stated that when reviewing the standard for the last publication, he discovered in section F.7.3.1.1 where “should” ought to be changed to read as “shall”.

**Motion:** S. Williams made a motion to change language from “should” to “shall” in section F.7.3.1.1. J. Wagner seconded.

**Discussion:** All agreed that any supply fan for B1/B2 should be required to have an interlock fan.

**Vote:** All in favor.

*Motion passed. Language will be balloted.*
