MEMORANDUM

TO: Joint Committee on Plastics

FROM: Bob Powitz, Chairperson

DATE: October 20, 2014

SUBJECT: Adjudication ballot: Proposed revision to NSF/ANSI 14–Plastic piping system components and related materials (14i55r) normative references

Enclosed is an adjudication ballot for revision 1 (r1) of NSF/ANSI 14 issue 55 that is being forwarded to the Joint Committee for balloting. Please review the changes proposed to this standard and submit your ballot by November 3, 2014 via the NSF Online Workspace.

Purpose

The proposed revision is to update the normative references in NSF/ANSI 14.

Voting

This two-week ballot allows voters the opportunity to respond, change or reaffirm their vote based on the content of the unresolved comment with response letter located in the reference items for this ballot.

Voting options:

1. Affirmative: you are voting to accept the ballot document as it stands after your consideration of the unresolved comment.
2. Negative: You are voting to reject the ballot document as it stands after your consideration of the unresolved comment. Voters who change an affirmative to a negative shall cite the unresolved comment that caused their decision.
3. Abstain: You do not feel that you have sufficient information to make an informed decision on this issue.

Please note that if you do not return a vote in this adjudication ballot, your original vote will remain in effect.

At the close of this adjudication ballot, all results will be tallied to determine if the requirements for consensus have been satisfied.

If you have any questions about the technical content of the ballot, you may contact me in care of:
