Memorandum

TO: Joint Committee on Plastics and Recreational Vehicle Plumbing Components
FROM: Dr. Robert Powitz, Chairperson of the Joint Committee
DATE: November 17, 2014
SUBJECT: Proposed revision to NSF/ANSI 14, Plastics piping system components and related materials (14i70r1)

On behalf of Tim Haenftling and Mark Mapili, Issue proponents, the ballot for NSF/ANSI 14, issue 70, revision 1, normative references has been recommended to be sent to the Joint Committee for consideration. Please review the proposal and return your ballot by the ballot due date of December 10, 2014 via the online workspace (http://standards.nsf.org).

When adding comments, please identify the section number/name for your comment and add all comments under one comment number where possible. If you need additional space, please upload a word or pdf version of your comments online via the browse function.

Purpose

The purpose of this ballot is to correct the reference to CAN/CSA 448 to the most recent edition.

Background

This was brought forward in the normative reference ballot 14i55 as a correction. It is presented here as a new ballot for consideration.

Public Health Impact

The proposed language will have a positive impact on public health by keeping up-to-date with the references within this standard.

If you have any questions about the technical content of the ballot, you may contact me in care of:

2 Normative references

The following documents contain requirements that, by reference in this text, constitute requirements of this Standard. At the time of publication, the indicated editions were valid. All of the documents are subject to revision, and parties are encouraged to investigate the possibility of applying the recent editions of the documents indicated below. It is the responsibility of the user of this Standard to determine the acceptance of the referenced standards to the application and requirements of the local jurisdictions. The most recent published edition of the document shall be used for undated references.

2.1 Normative references for plastic pipe and related components

- CAN/CSA C448 Series 02 2013(R2012). Design and Installation of Earth Energy Systems

Reason: This was a correction to the reference to update it to the most recent edition of the standard.
