Polyethylene QC Requirements (PLAS-2007-8)

A. Ciechanowski gave a brief summary of his issue paper. He stated that this proposal was to add QC requirements to table 10 for polyethylene pipe designated for storm sewer and subsurface drainage applications.

**Motion:** S. Cavanaugh moved to accept the language as proposed. A. Scarano seconded.

**Vote:** All in favor.

*Motion carries. The language will be balloted as proposed.*
