Load Tests (PLAS-2007-13)

J. Chappen presented this issue paper to the Joint Committee. Again, this change was proposed to add load tests to sections 11 and 12. This would reference IAPMO TS-1 (a standard for RVs that is nearly identical to the CSA requirements).

Motion: M. Clark moved to accept the language as proposed. Anthony Scarano seconded.

Vote: All in favor.

Motion carries.
