Joint Committee on Recreational Water Facilities
2019 Annual Meeting

Draft Meeting Summary Excerpt
Wednesday September 11, 2019
NSF International, Ann Arbor, MI

This document is part of the NSF International Standards process and is for NSF Committee uses only. It shall not be reproduced, or circulated, or quoted, in whole or in part, outside of NSF activities, except with the approval of NSF.

RWF-2019-6 – Conformity assessment (D. Purkiss)
T. Bellish presented on behalf of D. Purkiss. During a meeting between CMAHC staff, NSF staff, and manufacturers, it was noted that there was inconsistency between certification bodies regarding things like audit frequency. It was suggested that a conformity assessment standard, similar to NSF/ANSI 223 be created to address this issue.

Motion by D. Riggs
Send to the Pool Chemical Evaluation Task Group for language development.

Second:
B. Vincent

Discussion:
H. Evans stated that he found it alarming that some manufacturers were audited yearly while others were audited every 5 years. B. Vincent noted that Standard 223 would serve as an excellent template.

Vote:
All in favor.

Motion:
Carries.
