Hello everyone.
Closing the loop on this.

Regarding Beth's point about Standard 330, here is that definition:

3.184.10 potable water: Water that is satisfactory for drinking, culinary, and domestic purposes.

Attached are the full comments from the recent straw ballot with the Standard 12 TG.

Thanks !
Al

Hi, Beth.

Is the attached document what you referring to on your comment for this ballot?
I want to post it as supplemental material to your comment so everyone knows the details of the document you were referring to but did not want to do so until you could verify it is the correct document.

Thank you,

Jim Brady
